Sir:

**Technology Center 2600**

In response to the Office Action dated **October 21, 2002**, please amend the above-identified application as follows:

**IN THE CLAIMS:**

Please amend the claims as indicated below:

1. (Twice Amended) A controller without a data storage device that receives printing data for each page from a host, having a data transferring unit that transfers the printing data to a printer and controls the printer to print the printing data while monitoring states thereof is characterized in that it comprises:

an analyzing unit that analyzes the printing data and manages the number of pages transferred to the printer; and

an error processing unit that passes error data and the number of pages of which printing have been completed to the host when an error occurred in the printer.
